

sun exposure

```
graph TD; A[sun exposure] --> B[use sunscreen]; A --> C[skin cancer]; B -- "?" --> C;
```

The diagram is a flowchart with three rectangular boxes. The top box is labeled 'sun exposure'. Two arrows point downwards from this box: one to the left, pointing to a box labeled 'use sunscreen', and one to the right, pointing to a box labeled 'skin cancer'. A horizontal arrow points from the 'use sunscreen' box to the 'skin cancer' box, with a large red question mark positioned above it.

use sunscreen

?

skin cancer
